

# VISCOUNT EXPORT PALLET (OPEN DECK) 1200mm x 1000mm

Lasts 3 times longer than wooden pallets  
No fumigation  
Environmental & sustainable  
European design & manufacture

Export grade European manufactured plastic pallets offer superior design while ensuring reductions in expensive time delays and logistical limitations associated with the fumigation of wooden pallets.

Manufacture from recycled HDPE, and elimination of the need for fumigation at the border, provides the Viscount Open Deck Export Pallet with a huge economic and environmental advantage over conventional wooden pallets. Exporters will appreciate the reduction in delays caused by restrictions and bureaucracy now imposed on wooden pallets by many countries worldwide. Cost-effective, robust, light-weight, and an extremely efficient user of space when nested (return loop and storage), this pallet will satisfy all the needs of the New Zealand exporter.

## TECHNICAL DRAWING

## TECHNICAL DATA

### Dimensions

Length	1200mm
Width	1000mm
Height	150mm
Window opening	110mm

\*dimensions in accordance with ISO, AFNOR, DIN, CEN

### Load capacity

Static	2000kg
Dynamic	1000kg

\*loading capacities can vary according to the type of load

\*\* homogeneously distributed load

### Weight

6.2kg

### Temperature range

In use	-20°C up to +60°C
Cleaning	up to +100°C

### Options (minimum quantities apply)

- Marking is possible (name/logo/ numbering)

### Characteristics

- Standard colour: black
- UV and weather resistant
- Light but stable construction
- Manufactured from recycled HDPE
- Fully recyclable
- Biologically stable
- Compact nesting: 48 pallets per stack (2.5m)

### Other considerations

- Eliminates the requirement for ISPM15 certification, which requires wooden crates to be fumigated or heat treated. Countries this applies to include China, Korea, Canada, the EU including Switzerland, and the USA. Benefits of compliance include elimination of time wasted in paperwork and bureaucratic processes

### Benefits to exporters

- Consistent & lightweight - only 6.2kgs
- 1200 x 1000 footprint - 10 to a 20ft container or 20 to a 40ft, per level
- 1000kg load dynamic and 2000kg static - performs above its weight and price
- Made from recycled material - reduces cost - competes with wooden export pallets
- No requirement for ISPM15 - no need for certification - reduced costs of compliance
- Nestable - reduces the cost of freight getting it to you and reduces the storage space required
- Self draining
