

VISCOUNT EXPORT PALLET (CLOSED DECK) 1200mm x 1000mm

Lasts 3 times longer than wooden pallets
No fumigation
Environmental & sustainable
European design & manufacture

This quality European designed and manufactured closed deck export pallet, offers excellent performance, nestability and low weight compared to traditional wooden export pallets or lower specification plastic alternatives. Available now!

Manufactured from recycled PET - which eliminates the need for fumigation and heat treatment - provides the Viscount Closed Deck Export Pallet with a huge economic and environmental advantage over conventional wooden pallets. Exporters will appreciate the reduction in delays caused by restrictions and bureaucracy now imposed on wooden pallets by many countries worldwide. Cost-effective, robust, light and consistent in weight, and an extremely efficient user of space when nested (for empty movements and storage), this pallet will satisfy all the needs of the New Zealand exporter.

TECHNICAL DRAWING

TECHNICAL DATA

Dimensions

Length	1200mm
Width	1000mm
Height	134mm
Window opening	95mm

*dimensions in accordance with ISO, AFNOR, DIN, CEN

Load capacity

Static	1500kg
Dynamic	800kg

* loading capacities can vary according to the type of load

** homogeneously distributed load

Weight

7.6kg

Temperature range

In use	-20°C up to + 60°C
Cleaning	up to +100°C

Options (minimum quantities apply)

- Marking is possible (name/logo/ numbering)

Characteristics

- Standard colour: black
- UV and weather resistant
- Light but stable construction
- Manufactured from recycled PET
- Fully recyclable
- Biologically stable
- Compact nesting: 48 pallets per stack (2.5m)

Other considerations

- Eliminates the requirement for ISPM15 certification, which requires wooden crates to be fumigated or heat treated. Countries this applies to include China, Korea, Canada, the EU including Switzerland, and the USA. Benefits of compliance include elimination of time wasted in paperwork and bureaucratic processes

Benefits to exporters

- Consistent & lightweight - only 7.6kgs
- 1200 x 1000 footprint - 10 to a 20ft container or 20 to a 40ft, per level
- 800kg load dynamic and 1500kg static - performs above its weight and price
- Made from recycled material - reduces cost - competes with wooden export pallets
- No requirement for ISPM15 - no need for certification - reduced costs of compliance
- Nestable - reduces the cost of freight getting it to you and reduces storage space required
- Self draining
