NALLY MEGABIN

(SOLID & VENTED)

NALLY MEGABIN

Designed for fruit and vegetable movement and retail high performance, the Nally MegaBin is clearly the leader in Australasian bulk bins.

Rounded corners and smoother interior surfaces results in less bruising and damage to your produce. Multiple vents in sides and base provide superior airflow so products cool faster adding valuable shelf life to your produce. Unique design with rounded entry has a larger forklift entry height than wooden bins, and the smooth, non-absorbent surface is not affected by dipping operations.
