

VISCOUNT PRY-OFF RANGE

Pails don't come any tougher or more industrial-strength than the Viscount Pry-Off range. These are the pails of choice for the industrial, cleaning and coatings industries.

They provide maximum protection of contents throughout the challenging distribution, end-use and retail environments. Available in 4 sizes, Pry-Off pails are used for a range of products that includes powder detergents, adhesives, sauces, to industrial nails and bolts.

The 20L Pry-Off pail is also available as a "Dangerous Goods" container, (UN DG Group 2 and 3 solids) custom moulded by Viscount Plastics in materials that meet specific categories of the United Nations dangerous goods packaging criteria. Suitable for solids (non-liquids) only.

	g/weight	
	320	1038

The Pry-Off pail range comes with heavy gauge metal handles with comfortable plastic grips, a choice of lid colours, the inclusion of a lid gasket for the 20 litre pail and up to four colours offset printing of the pail.

Injection moulded from polymers that provide extreme flexibility, the lid has air tight resealing characteristics, is liquid tight, drop safe and can withstand a high degree of sideways distortion without breaking its seal with the pail rim.

Please consult Viscount Plastics where weights, volumes and dimensions are critical, as those shown should be treated as indicative only. (Viscount Plastics reserve the right to make product alterations at its discretion).
