

VISCOUNT PLASTICS SECURITY CRATES

Safer, more secure, cost effective freighting and storage

Security Crates are widely used in retail distribution, pharmaceuticals and manufacturing industries. They are designed for both automated and manual handling. The containers secure the distribution of all types of valuable goods with an easy to attach security seal that guarantees that the container can not be opened without detection.

Features include

- Integral plastic theft proof hinges
- Tamper evident security device on the lids
- Card or document pocket on each side
- Raised blocks help to ensure a positive stacking location
- Save on freight cost and storage cost when empty for nesting

Strap lids available

When empty crates can be nested inside one another, therefore saving freight and storage costs by over 60%

When transporting high value goods, the crates can be locked with a security seal that cannot be opened without detection.

The crates can be palletised on 800 x 1200 and 1000 x 1200mm

Innovative, versatile and customer focused
