

# VISCOUNT TOP PAIL RANGE

Moulded under clean room conditions stipulated for food containers, the Top Pail range provides industrial strength security for contents as diverse as bulk catering products, chemical and adhesives.

In fact, everything about the Top Pail range demonstrates security. The lid is opened by removing a special tear top ... giving easily identified evidence of tempering or unauthorised opening. Once opened, the lid can be securely resealed by hand. The lid also provides an interlock for more secure stacking during transport and storage.

Features include plastic handles on request, up to four colour offset printing of the pail, and a range of lid colours.
