

VISCOUNT TOP PAIL RANGE

Manufactured from quality food grade polymers, the Top Pail range provides industrial strength security for contents as diverse as bulk catering products, chemicals and adhesives.

In fact, everything about the Top Pail range demonstrates security. The lid is opened by removing a special tear strip, giving tamper resistance and evidence of unauthorised opening. Once opened, the lid can be securely resealed by hand. The lid also provides an interlock for more secure stacking during transport and storage.

Features include wire handles (plastic on 4 Litre), up to four colour offset printing of the panel, and a range of lid colours.
